

Statement of CCB Standards Compliance

Madre de Dios Amazon REDD Project

Validation Scope:

The SCS Greenhouse Gas Verification Program has conducted a validation of the Madre de Dios Amazon REDD Project against the requirements of the Climate Community Biodiversity Alliance (CCBA) Project Design Standards, Version 1.0 (May 2005). SCS conducted both desk and field based assessment activities in its evaluation of the project. SCS used the Project Design Document supplied by GREENOXX as the basis for its evaluation.

Validation Opinion:

Based on the results of our validation activities, it is our opinion that the project meets the quality standard defined by CCBA. The Madre de Dios Amazon REDD Project conforms to the 15 Required CCB Criteria. The project also conforms to a total of 8 Optional CCB Criteria qualifying the project for Gold Level.
